

Endoscopic Vessel Harvesting (EVH) Clinical Training Program

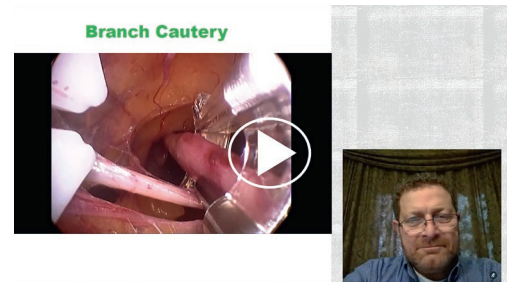

Training and Support for the VirtuoSaph™ Plus EVH System

Whether you are a novice or expert harvester, Terumo's EVH training program can benefit you. Designed to meet your individual needs, we offer a broad range of training options. Our program includes observation and training at our Centers of Excellence, use of proprietary hands-on materials and an extensive library of resources to educate harvesters.

Getting started

Step 1 – Didactics and video reviews

- Take your first steps and learn about the features of the VirtuoSaph™ Plus EVH system device
- Receive tips and tricks from our experienced trainers and clarify any open questions

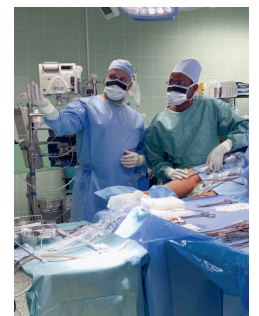

Step 2 – Hands-on experience using synthetic tissue plates

- Simulate the OR environment with an endoscopic tower and generator
- Experience timing and real-life feel of how to correctly divide branches with electro-surgical bipolar cautery
- Practice the correct technique in a pressure-free environment, to improve your muscle memory

Step 3 – Live case observation with Q&A session at our Centers of Excellence

- Observe cases and gain first clinical experience
- Connect with an experienced clinical specialist and discuss your objections, concerns and questions

Step 4 – Clinical hands-on training (EVH / ERAH) at your own hospital

- Coordinate dates with your Terumo representative for your first surgical cases on-site and receive support by an experienced clinical specialist (follow-up visits as required)
- Get certified by our clinical specialists and become a part of Terumo's EVH harvesters community

Build expertise, gain experience & develop muscle memory

The goal of our training program is to demonstrate the clinical benefits of the VirtuoSaph[™] Plus EVH System, develop your harvesting skills and share best practices.

Upon completion of Terumo's EVH Clinical Training Program, you will have the confidence and skill set to utilize the device and train other members of your team.

Continuity is key!

Access our large variety of learning resources, such as narrated live case videos, webinars, eLearnings etc. and take a deep dive into the EVH procedure, features and benefits of the device, tips & tricks from experienced peers ... and much more!
